NELTINE UNYOH

Product Manager | B2B SaaS & Fintech | Technical Background

Douala, Cameroon (UTC+1) · Open to remote | +237 654 894 694 | neltineunyoh8@gmail.com

PROFESSIONAL SUMMARY

Product Manager with a Software Engineering degree and nearly two years owning B2B SaaS, fintech and AI-powered products end to end: discovery, PRDs, roadmap, launch, adoption and sales support. A former full-stack developer who works closely with engineering, runs client demos and onboarding, and turns usage data (Mixpanel, SQL, Excel) into clear product decisions. Proven in fully remote, cross-functional teams with daily overlap across European and US hours. Fluent in English and French.

SKILLS

Product: Discovery, strategy, user and market research, competitive analysis, MVP definition, roadmapping, prioritization
Delivery: PRDs, user stories, acceptance criteria, user flows, Agile/Scrum, sprint and release planning, QA
Go-to-market: Client demos, sales support, client onboarding, training and product documentation
Analytics: KPIs, funnel and adoption analysis, A/B testing, SQL, Excel/Google Sheets, Mixpanel, Metabase
Tools & tech: Jira, Figma, Notion, GitHub, JavaScript, TypeScript, React, Node.js, REST APIs, Supabase

EXPERIENCE

Sanfaani LTD **Jul 2026 – Sep 2026**
Product Manager (Contract) *Lagos, Nigeria · Remote*

- Owned product goals, priorities and development plans, tracking performance to decide where to iterate.
- Wrote requirements and specifications that guided engineering and design delivery.
- Combined user feedback with customer and competitor research to shape the product roadmap.

Mihma Corporation **Sep 2025 – Jun 2026**
Product Manager, Kora *Douala, Cameroon*

- Owned the full lifecycle of Kora, a B2B SaaS platform used by 20+ SMEs to run sales, inventory, invoicing, payments, POS, staff and multi-branch operations across 7 product modules.
- Ran 10+ product demos for prospective clients and supported sales in discovery and closing conversations, tailoring Kora's configuration to each client's workflow; helped close and onboard 5+ new client businesses.
- Created training guides and product documentation that helped onboarded clients adopt key features.
- Led discovery through customer interviews, market and competitor research; turned findings into PRDs, user stories, acceptance criteria and user flows in Notion and Figma.
- Prioritized the Jira backlog by customer value, business impact and feasibility; facilitated sprint planning and backlog refinement with engineering and UI/UX.
- Fed patterns from client calls back into the roadmap and supported go-to-market strategy.

Stayverse **Nov 2025 – Mar 2026**
Product Manager (Contract, part-time) *Lagos, Nigeria · Remote*

- Set product priorities, roadmap direction and delivery scope in a fully remote, cross-functional team.
- Analyzed funnels and feature adoption with Mixpanel and SQL to find drop-off points and guide product decisions.
- Defined success metrics and KPIs, and scoped the MVP and roadmap by user value and business impact.

QuizGenie **Jan 2025 – Aug 2025**
Product Owner & Full-Stack Developer *Douala, Cameroon*

- Took an AI-powered learning product from concept to launch in 8 months as product owner and full-stack developer:problem, target users, vision, MVP scope and roadmap; launched to a pilot group of early users.
- Validated the problem through user, market and competitive research, then wrote the PRDs and specifications.
- Built product features and integrated AI capabilities; managed development priorities in Jira.

Maviance PLC **Jul 2024 – Dec 2024**
Frontend Developer Intern *Yaoundé, Cameroon*

- Built responsive interfaces for digital financial products in Agile Scrum teams with product managers and designers, integrating REST APIs and troubleshooting issues to improve reliability.

SELECTED PROJECTS

- **AgriLock** (2025): led product and development of a smart-contract agri-finance concept connecting farmers, investors, buyers and cooperatives.
- **Product teardowns**: analyzed the strategy, customer journeys, UX and business models of WhatsApp and MTN MoMo Cameroon.
